Childhood!

## Let it Snow!

With the snow falling in the mountains and more expected in our area you may find yourself singing this tune. However, when thinking about going to work, the reality is that snow does not always go with a commute and making sure your children are in daycare.

With the staff scattered from Marysville to Shoreline, there may be problems in opening the Center on time on those days when the road conditions are unsafe. We do not want you, your child or our teachers to risk injury when road conditions are treacherous.

Therefore, we will close or delay opening the Center if the weather dictates.

The Center is located in a convergence zone and the weather may be worse at the Center than in Seattle or Everett. If it's snowing or the Edmonds School District is opening late or closed for the day due to the weather, please call the Center before you bring your child in. You will either reach a special recording indicating closure or a staff member who will give you the information you need. In extreme weather conditions, you will hear a special recording on the answering machine telling you the Center is closed and give you information on future operation. This year we will be sending out Emails to help communicate with you when we need to stay closed. We will do all we can to keep the Center open. However, we strongly urge you to telephone the daycare on those days you know there are hazardous conditions. Our number once again is **(425)745-4575**.

If we should have a power outage, our situation is somewhat different. Our phone system is powered by electricity. However, the church has one line that does not require electricity. When manned, you can reach the Center by phoning (425) 742-1522. We suggest that if you think we may be out of power, do not bring your child into the Center until you are able to get a phone call through. With even a temporary outage, we must consider the warmth of the building and can only run our generator for a short period of time. If there is a power outage in the middle of the day we will move the children to the sanctuary and call you to come pick them up. If we cannot assure that our facility is a safe place for your child, we will not open.

For parents of school-age children, inclement weather could mean delayed opening of Martha Lake Elementary. This could mean additional time and fees at daycare. Snow closure days from public school will mean whole day charges.

**Thank you** for your understanding and patience. We hope that all of you have a wonderful and safe winter.
